RECOMMENDATION.

The General Purposes Committee recommend the adoption of the
 proposal that 50% of the Capital Expenditure together with the whole of
 the working costs in respect of Water, Sewage and Scavenging should be
 borne by the General Expenses Rate.

They are of opinion that the principle of Collective as opposed
 to Parochial responsibility must be established if Rural Councils are to
 maintain their place in Local Government.

This proposal will enable schemes such as water, sewerage and
 collection of house refuse to be adopted in districts where under present
 conditions such schemes are impossible owing to cost.

The incidence of a General Expenses Rate of $10\frac{1}{2}$ d. on small
 agricultural districts will fall on residential property only owing to the
 exemption of farm land and buildings under the Agricultural Rates Bill.

The charge to General Expenses has already been adopted by other
 District Councils notably Molton Mowbray, Ashby-de-la-Zouch and Market
 Harborough.
